

Landmark Autism Genetic Study Comes to Rockford Area: Seeking Participants

Families affected by autism can partner with the AARTS Center at Rush to participate in a landmark national research study designed to speed up research and advance our understanding of autism to help improve lives. Data, through an online registration portal and genetic information through a saliva sample will be gathered on-site with support from the SPARK team. All ages are welcome!

Can research change the future of autism?

Saturday, December 9th at Easterseals Academy

9:30 AM – 1:30 PM at Easterseals Academy, 8301 Mitchell Rd., Machesney Park, IL

Participants with autism will receive up to \$50 in Amazon gift cards for their participation

To RSVP contact Holly Lechniak at SPARK@rush.edu; 312.563.2765

*walk-ins welcome, may be some wait
